

Is your business in need of capital? Learn about low-interest rate loan options.

The Greater Milwaukee Foundation is encouraging businesses in Milwaukee, Waukesha, Washington and Ozaukee counties to learn about and apply for low interest rate loans. Businesses must have a storefront or retail location.

Join us for a free informational session!

Learn about our ThriveOn Small Business Loan program, who qualifies and how to apply. And hear about additional resources from our partners.

Learn more about impact investing, the benefits and our approach:

- Low-interest rate loans offer viable support to businesses that may have been directly impacted in recent years by a challenging economy.
- Funds can be used to support payroll/hiring, capital projects, operating, equipment and more.
- Technical assistance is a vital required part of the program.
- Share your business and connect with other resources and entrepreneurs.
- As you pay back your loan, it recycles back to the community, supporting other small businesses and opportunities in housing and early childhood education.
